

- Select the rule **ul.MenuBarHorizontal li** in the CSS Styles panel, then click the **Edit Rule button** to open the CSS Rule Definition for ul.MenuBarHorizontal li in SpryMenuBarHorizontal.css dialog box.
- Click the **Box** category, click the **Width** text box, replace the current value with **190**, click the **Width unit of measure list arrow**, then click **px**.

TIP To calculate the width for each menu item, divide the number of pixels of the banner width by the number of menu items.

- Click the **Height** text box, type **25**, verify that **px** is the unit of measure, then compare your screen to Figure 20.

The menu bar items will be spread across the page to equal the width of the banner. Next, you'll edit the rule that defines the properties of each menu item button when the mouse is not positioned over them.

- Click in the **Block** category, change the **Text-align** value to **center**, then click **OK**.
- Click the **ul.MenuBarHorizontal a** rule in the CSS Styles panel, then click the **Edit Rule button** to open the CSS Rule Definition for ul.MenuBarHorizontal a in SpryMenuBarHorizontal.css dialog box.

See Table 3 for a summary of the rules applied to the the Spry menu bar.

TIP If you want to understand the function of each rule in the SpryMenuBarHorizontal.css style sheet, click the SpryMenuBarHorizontal.css button in the Related files toolbar and take a few minutes to read the comments for each rule. Click the Show Design View button to return to Design view.

Figure 20 Add properties to the ul.MenuBarHorizontal li rule

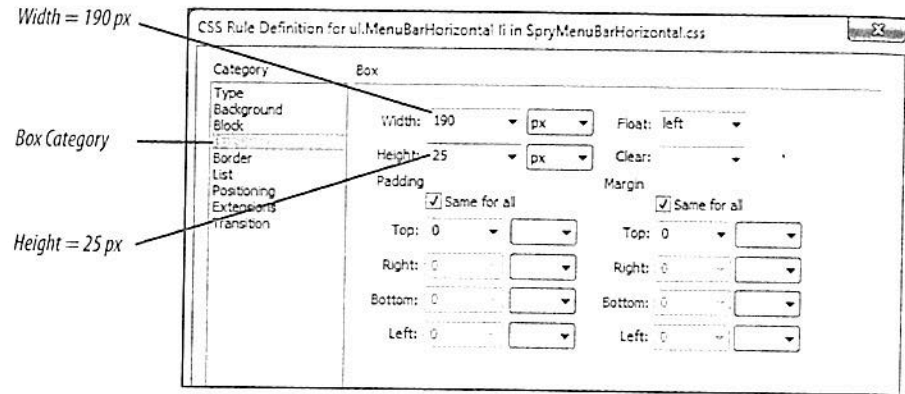

TABLE 3: SUMMARY OF EDITING STEPS FOR CSS MENU BAR RULES

CSS Rule	What We Did
ul.MenuBarHorizontal	We changed the Font-family and Font-size for the menu bar.
ul.MenuBarHorizontal li	We changed the Box Width, Box Height, and Text-align properties for each menu item.
ul.MenuBarHorizontal a	We changed the Type color and Background color for all menu items when the mouse is not positioned over them in the browser.
ul.MenuBarHorizontal a.MenuBarItemHover, ul.MenuBarHorizontal a.MenuBarItemSubmenuHover, ul.MenuBarHorizontal a.MenuBarSubmenuVisible	We changed the Type color and Background color for all menu items when the mouse is positioned over them in the browser.
ul.MenuBarHorizontal ul li	We changed the width and height of the submenu items to make them match the dimensions of the menu items.
ul.MenuBarHorizontal ul	We changed the Box width to prevent a space between the main menu item and the first submenu item.
